

## Corrosive substances safety cabinet - 160L storage capacity

### APPLICATION

For the safe and secure indoor storage of Class 8 corrosive substances.

### FEATURES

- Double wall construction with 40mm thermal barrier
- Vent ports with integral flash arrestors fitted on each side
- Two self-closing doors with stainless steel, three point bullet self-latching system
- Adjustable hydraulic door closure
- Flush mount handle and key lock
- Continuous piano hinge on doors deliver smooth closure
- One adjustable shelf plus fixed base shelf, with chemical resistant thermoplastic coating
- Internal spill containment bund with suspended perforated floor
- Durable high-gloss powder-coated finish
- Grounding connector enables earthing if required
- Adjustable screw-in feet for optional elevation
- Safety and warning signage applied in accordance with Australian Standards.

### SPECIFICATIONS

Product name	Corrosive substances safety cabinet
Code	CSC160
Maximum storage capacity	160 litres
Construction material/colour	Zinc anneal steel
External surface finish/colour	UV-stabilised polyester powder   blue
Internal surface finish	Chemical-resistant thermo-plastic powder   min. 100 micron DFT   black
Bund	Chemically-resistant thermo-plastic lining
Doors	2
Shelves (including base)	2   perforated for free air movement   chemically-resistant thermo-plastic coating
Shipping weight	127kg

### DIMENSIONS (W x D x H)

External dimensions	1110mm x 510mm x 1305mm
Internal dimensions	1010mm x 420mm x 1055mm

### Class 8: Corrosive Substances

Class 8 substances (corrosive substances) are substances which, by chemical action, will cause severe damage when in contact with living tissue, or, in the case of leakage, will materially damage, or even destroy, other goods or the means of transport.

Referenced from the Australian Dangerous Goods Code, 2017, Edition 7.5

### MANUFACTURED TO MEET THE REQUIREMENTS OF

AS3780-2008	The storage and handling of corrosive substances
AS1319-1994	Safety signs for the occupational environment
ADG CODE 7.5	Australian Dangerous Goods Code 2017 Edition 7.5
AS4506-2005	Metal finishing - Thermoset powder coatings
