

## Corrosive substances safety cabinet - 30L storage capacity

### APPLICATION

For safe and secure indoor storage of Class 8 corrosive substances.

### FEATURES

- Double wall construction with 40mm thermal barrier
- Vent ports with integral flash arrestors fitted on each side
- Single self-closing door with stainless steel, three point bullet self-latching system
- Adjustable hydraulic door with flush mount handle and key lock
- Continuous piano hinge on door to deliver smooth closure
- One adjustable shelf plus fixed base shelf, each with chemical resistant thermoplastic coating
- Chemically-resistant thermoplastic powder coating on all internal surfaces for long-term protection against corrosive substances
- Internal spill containment bund with suspended perforated floor
- Durable, UV-stabilised polyester powder coat finish
- Grounding connector to enable earthing (if required)
- Adjustable screw-in feet for optional elevation
- Safety and warning signage applied in accordance with Australian Standards.

### SPECIFICATIONS

Product name	Corrosive substances safety cabinet
Code	SCIRC30
Maximum storage capacity	30 litres
Construction material	Zinc anneal steel
External surface finish/colour	UV-stabilised polyester powder   blue
Internal surface finish	Black chemical-resistant thermoplastic powder Minimum 100 micron DFT
Bund	Chemically-resistant thermoplastic lining
Doors	1
Shelves (including base)	2 Perforated for free air movement - finished with chemically-resistant thermoplastic coating
Shipping weight	55kg

### DIMENSIONS (W x D x H)

External dimensions	600mm x 475mm x 800mm
Internal dimensions	500mm x 375mm x 550mm

### Class 8: Corrosive Substances

Class 8 substances (corrosive substances) are substances which, by chemical action, will cause severe damage when in contact with living tissue, or, in the case of leakage, will materially damage, or even destroy, other goods or the means of transport.

Referenced from the Australian Dangerous Goods Code, 2017, Edition 7.5

### MANUFACTURED TO MEET THE REQUIREMENTS OF

AS3780-2008	The storage and handling of corrosive substances
AS1319-1994	Safety signs for the occupational environment
ADG CODE 7.5	Australian Dangerous Goods Code 2017 Edition 7.5
AS4506-2005	Metal finishing - Thermoset powder coatings
