8 Drum Bund - Low Profile Specification Sheet

8 Drum Bund - Low Profile (DBPG8LP)	
Dimensions	2420mm (L) x 1210mm (w) x 150mm(H)
Capacity	270 Litres
UDL	3,600 kg
Material (Bund)	Rota-Moulded Polyethylene
Material (Grate)	High Impact, Injection Moulded Polypropylene
Weight	59kg (with Grate)

DBPG8LP: 8 Drum bund low profile polyethylene with removable grate

Application: Store 8 x 205 litre drums to capture leaks, drips and spills

- · Heavy duty Australian made 'eight drum' storage bund.
- · Polyethylene construction provides excellent corrosion resistance to oils, fuels and a range of chemicals.
- 270 litre integral spill containment sump.
- Removable two piece polypropylene grated top allows easy access for cleaning.
- · Store drums directly or palletised on the bund.
- Dimensions (cm): 242 (l) x 121 (w) x 15 (h).
- · Uniformly distributed load: 3600 kg.
- Load tested in Australia by NATA accredited engineers dynamic compression test certificate available.
- · Can be connected to other low profile bunds to create customised working platforms.
- Shipping weight: 59 Kgs.
- · Available upon request: Drum Bund Joiner Strip & Connector for assembly of bunded work platform

IMPORTANT! Before starting to create a bunded platform:

- The area where the bunded area is to be situated <u>must</u> be free from rocks, sticks, small stones, grit or debris. Sweep the area clean prior to assembly
- The area where the bunded area is to be situated must be on level ground
