DIMENSIONS (W x D x H)

External dimensions	1058mm x 698mm x 1465mm
Internal dimensions*	838mm x 556mm x 1065mm

* Useable internal dimensions

Class 3: Flammable Liquids

Flammable liquids are liquids, or mixtures of liquids, or liquids containing solids in solution or suspension (for example, paints, varnishes, lacquers, etc., but not including substances otherwise classified on account of their dangerous characteristics) which give off a flammable vapour at temperatures of not more than 60 °C, closed-cup test, or not more than 65.6 °C, open-cup test, normally referred to as the flash point.
